PROJECTS

MicroLink — Microservices Demo Platform — Academic Project • Private Repository

Flutter • Python • FastAPI • PostgreSQL • Docker • REST API

- Designed a multi-service architecture with independent FastAPI services communicating via REST.
- Built a Flutter frontend consuming RESTful endpoints; containerised services using Docker.
- Implemented PostgreSQL schemas for structured data management across service boundaries.

ShopLK — E-Commerce Platform — shoplk-fullstack.vercel.app

React • Node.js • Express.js • MongoDB • Tailwind CSS

- Full-stack e-commerce app with product listing, cart management, and user authentication.
- REST API backend with Express.js and MongoDB; deployed to Vercel.
- Responsive UI built with React and Tailwind CSS with client-side routing.

Settle Up — Expense Splitter — sandali011.github.io/settle-up

React • JavaScript • Tailwind CSS • GitHub Pages

- Web app for splitting shared expenses, tracking debts, and settling balances among groups.
- Pure frontend application with local state management; deployed via GitHub Pages.
