PROFESSIONAL SUMMARY

Proactive IT Undergraduate from ITUM with hands-on experience in full-stack web and mobile microservices development. Skilled in building RESTful APIs using Python (FastAPI) and PostgreSQL, alongside frontend development in React.js and Flutter. Familiar with Docker containerization, Git workflows, and cloud fundamentals (Azure/AWS). Seeking a Software Engineering Intern position.

EDUCATION

- National Diploma in Technology (NDT) in Information Technology — ITUM (2024 – Present)
- G.C.E. Advanced Level (Physical Science) — Badulla Central College (2022) | Results: 2C, 1S

TECHNICAL & SOFT SKILLS

- · Programming & Scripting: JavaScript (ES6+), Python, Dart, TypeScript (Basics), SQL, HTML5, CSS3
- · Web & Mobile: React.js (In Progress), Flutter (Mobile UI), FastAPI, Node.js & Express.js (Basics)
- · Databases & Cloud: PostgreSQL, MongoDB (Atlas), Docker, Azure (AZ-900 Concepts), Vercel
- · Tools & Architecture: Git, GitHub, RESTful APIs, JWT Auth, Microservices, OSM API, Postman
- · Soft Skills: Analytical Problem Solving, Team Collaboration, Fast Adaptability, Communication

KEY PROJECTS

- MicroLink – Smart Micro-Business Discovery & Navigation Platform (Academic - ITUM)

- Engineered core shop-service microservice with FastAPI, SQLAlchemy 2.0 ORM, and Pydantic.

- Implemented great-circle distance search (Haversine formula in Python) & OpenStreetMap API.

- Developed cross-platform Flutter UI (debounced shop search, category filters, and detail views).

- Personal Expense Tracker & Financial Dashboard (Personal Project)

- Built responsive client-side web application for managing daily income/expenses.

- Implemented dynamic DOM manipulation and browser LocalStorage API for offline data storage.

- · Real-Time Collaborative Task & Chat Platform (In Development)

- Developing a real-time collaborative task app featuring instant WebSocket updates & MongoDB.

CERTIFICATIONS & CONTINUOUS LEARNING

- Full Stack Open: University of Helsinki (In Progress) — React, Node, TypeScript, CI/CD, PostgreSQL
- JavaScript Algorithms & Data Structures: freeCodeCamp (Coursework Completed) — ES6+, Algorithms
- Microsoft Azure Fundamentals (AZ-900 Concepts): Microsoft Learn (Self-Paced) — Cloud Architecture (In Progress)
